Subject RE: Publications Application - Sport Fish - ADF&G, Alaska
Department of Fish and Game: Pebble related subsistence
studies available

Hi Phil. I checked out the restaurants downtown thinking I might catch up with you guys but wasn't able to meander downtown until close to noon. Thanks again for sharing your place. Your lab (can't remember her name) and I became fast buds and good house company in the evening. Worried a bit about the one chicken that likes to jump in the feeding bin as I pulled her out twice. We'll have to catch up soon. Sue

Thanks Sue. I will forward to Dave Athons and Alan Boraas.

We tried to call you when we were in Dillingham for lunch last week, but none of our cell phones would work.

studies available

<http://www.adfg.alaska.gov/sf/publications/index.cfm?ADFG=main.mainSearchSubmit>

Phil -

The attached link includes all but two of the subsistence studies (Braund/ADFG) you're looking for:

Technical Report 360 (year 3 of 5 years of studies) Technical Report 355 (year 3 of 5, separate study done on Lime Village) Technical Report 322 (year 2 of 5) Technical Report 302 (year 1 of 5)

Fourth year report undergoing "internal" review by ADFG (and others?) and should be completed by the end of August at which time it should be added to ADFG's website.

Data (surveys) for the fifth year study - on Dillingham - just completed and it will be a year or so before the actual report drafted.

Jen/ADFG (name of the Anchorage person the Dillingham office gave me) referred me to Davin Holen/ADFG who has co-authored the reports and the best person to consult with for more details/data accessibility, etc. Davin's direct line is 267-2807 and his email davin.holen@alaska.gov.

Hope this helps.

Sue/BBNA
